Big Changes for 2006!

Community Health plan of Washington (CHPW) will not be in your area next year. CHPW is the health plan you have now. You will be fee-for-service beginning January 1, 2006.

Fee-for-service is not like a health plan. You must make sure a provider will take your medical ID card. The card is also known as an "open coupon". A provider could be a doctor, dentist, clinic, pharmacy or hospital.

Behind this letter is a book with more information.
